

John Kerry was telling about what OTHERS had said at the "Winter Soldier" hearings. "They said they had cut off ears..." etc. However this pseudo documentary leaves out this beginning. Also, some of us think it was very patriotic for returning veterans, who knew best about the war, to protest it. The Sinclair program will portray soldiers who did this as UNPATRIOTIC and as having a negative effect on the soldiers in Vietnam. UNTRUE! For many of them, it validated their own experience. The Sinclair program will not mention this. It is SO slanted. If it is to be presented, then you must show the opposite viewpoint. I might mention that the Sinclair stations were barred from showing the Ted Copple program in which he merely read the names of our soldiers who died in Iraq. They obviously have a pro-war, pro-administration, anti-Kerry agenda. Either this program should not appear, or they must provide EQUAL TIME immediately after the program.
